Professional Summary

A motivated and detail-oriented recent graduate in Software Development, equipped with a strong foundation in modern full-stack technologies. Passionate about building efficient, user-centric web applications through clean, maintainable code. Eager to apply academic knowledge and a strong problem-solving mindset to a collaborative development team, contributing to innovative and impactful software solutions.

Core Skills

Technical Proficiencies

HTML5 & CSS3

Tools & Methodologies

Git & Version Control

Soft Skills

Problem-Solving &
Debugging

JavaScript (ES6+)	Responsive Web Design (RWD)	Clean Code Principles
	RESTful API Integration	Attention to Detail
PHP	UI/UX Principles	Team Collaboration
MySQL & Database Design	Cross-Browser Compatibility	Fast Learner
	Agile Methodologies	Effective Communication

Education

Diploma / Degree in Software Development

Jomo Kenyatta University of Agriculture and Technology (JKUAT) OR Moringa School, etc.,
Nairobi

2021 – 2023 (Adjust dates as necessary)

- *Relevant Coursework: Object-Oriented Programming, Web Development, Database Systems, Software Engineering.*

Academic & Personal Projects

E-Commerce Product Catalog | [Live Demo](#) | [GitHub Repo](#)

- Developed a dynamic, full-stack web application for browsing products using PHP and MySQL.
- Designed a clean, intuitive user interface with HTML5, CSS3, and Bootstrap to ensure a fully responsive and mobile-first experience.

- Implemented core features including product categories, search functionality, and a user authentication system.
- Utilized Git for version control and followed MVC architecture for organized, maintainable code.

Weather Dashboard App | [Live Demo](#) | [GitHub Repo](#)

- Built an interactive dashboard that fetches and displays real-time weather data from a public RESTful API.
- Crafted a modern front-end with JavaScript for dynamic content updates and CSS Grid/Flexbox for layout.
- Focused on applying UI/UX principles to present data clearly and enhance user interaction.

Portfolio Website | [Live Demo](#) | [GitHub Repo](#)

- Designed and coded a personal portfolio website from scratch to showcase projects and skills.
- Emphasized responsive web design principles to guarantee optimal viewing on all devices.
- Practiced semantic HTML and well-structured CSS for accessibility and performance.

Certifications

- Responsive Web Design – freeCodeCamp (*2023*)
- JavaScript Algorithms and Data Structures – freeCodeCamp (*2023*)
- (Consider adding a PHP/MySQL specific cert from Coursera/Udemy if applicable)

Additional Information

- Languages: English (Fluent), Swahili (Fluent)
- Interests: Open-source contribution, attending tech meetups, exploring new web frameworks.
